

WODPC 60 6F

TECHNICAL DATA

- Flow:** 60 l/min
 - Max setting pressure:** 350 bar (250 bar)
 - Materials:** Steel Body (Aluminium body if required)
 - Pilot ratio:** 4:1 (if request 1:1; 8:1; 11:1)
 - Weight:** 3,350 kg (1,560 kg)
- Note:** - Pressure setting must be 30 % higher than pressure induced by the load.
- Recommended for use with closed center spools.

PRESSURE DROP CURVES

SPRINGS

Code	20			35		
	Pilot ratio	Adjustable pressure range bar	Pressure increase bar/turn	Standard setting bar	Adjustable pressure range bar	Pressure increase bar/turn
1:1	10-70	15	10	30-200	25	30
4:1	60-210	70	170	80-350	120	280
8:1	60-220	50		100-350	85	
11:1	60-250	90		80-350	150	

ORDERING CODE
